

Arlington High School Building Project

AHS Construction Update – 7/29/2021

Arlington HS Construction Schedule: April 2020 – April 2025

Construction Details

Phase 1 site-work is complete, and Phase 1 building construction is in progress. Work areas during this phase include the front green, the Peirce practice field, and the current softball field. During summer break (2021), portions of Fusco House, Downs Building and Links Building are closed for early abatement and temporary phasing in advance of the Phase 2 demolition and construction. Weekday construction work hours have been temporarily approved for 7AM – 6 PM. Saturday work is required to maintain the schedule. Material deliveries and other work will be coordinated around the school and traffic schedules to create as little disruption as possible.

COVID-19 Update

The health and safety of the community and workers on-site are of the highest priority and were taken into consideration in all project-related decisions. Per Governor Baker's announcement, construction work is deemed 'essential' and can continue. For the school to be completed on time, it is very important to maintain the original construction timeline as closely as possible. The Town of Arlington continues to monitor all state and federal guidelines regarding best practices during this unusual time and will modify recommendations as necessary to maintain safety and health for our community and construction workers.
